Persons with the T*R*L surname variations make up less than 1/2 of one percent of the population of the United States of America. Looking for ANYONE with one of the T*R*L surname variations in the USA is like looking for *a needle in a haystack*. Looking for a SPECIFIC T*R*L (first name, middle name, exact surname variation in a specific time frame) is like looking for *a needle in a FIELD of haystacks*.

One of the goals of the TERRELL SOCIETY OF AMERICA, INC. is to collect, store, and spread information about everyone with any variation of the surname and their descendants. After nearly nineteen years, we are beginning to show some progress.

This volume is a print out of a data base designed and maintained by Dan Brinson, Corporate Secretary of the SOCIETY and editor of the quarterly newsletter, Terrell Trails. There are over 22,000 items in this work.

This particular data base is designed to expose a specific T*R*L at a specific time and place. When perfected, this will be a very valuable research tool. It will reveal exactly where those with the various variations were, and when! It will reveal the states, counties, and communities that had T*R*L residents and most importantly, when. If one lived in a specific place in, say 1880, it is likely that he/she lived there one or more decades before and after 1880. That information will enable researchers to concentrate on specific places in search of deeds, wills, marriages, etc. to help complete the picture puzzle of T*R*LS in the U. S. A.

Each entry in this volume follows the exact order of the fields in the data base.

First line: *File ID* (This makes it possible for me to locate this exact record in case you can provide either correction or additional information about that specific person and/or event.); & ***Name*** (of the individual as shown in the source record. Recordors varied the spellings of given names almost as much as they did surnames. In some cases, I have changed the spelling of the first and/or middle name to make it conform to contemporary spellings. For example, Wm. has been changed to William, Jas. has been changed to James, in at least one case, Theadore was changed to Theodore, etc. Wherever I have done that, the [original spelling] is included after the middle initial (if any) in brackets. I have not changed all of them, but I hope to eventually.)

Second line: *Sex*: (m, f, - if in original record) ***Race***: (wh (white), bk (black), Mu (mulatto, mixed) if it is shown in the original record, or known, purely for genealogical identification. This conforms to identifications used in 1880 and later censuses.) ***Date***: (Date that the event in this record occurred); ***Place***: (The place where the person was at that specific time); and ***Event***: (birth, marriage, census enumeration, land transaction, residence address, death, burial, etc.

Third line onward: *Remarks*: (all the information from the original source about this particular person and event. Source of the information is included if such was available at the time the information was entered into the data base. In some cases a more specific location is given than that included in line 2. This is especially true of SS Death Index records from earlier searches. This field is a Memo Field. It is capable of storing up to about 20 pages if that much information is available about the individual and event. In other words, it can store a complete deed, will, or other source document in its entirety. It can store the head of the household and all the members in the household in any specific census.)

Persons in this volume are sorted by First Name, Middle Name, & Nick or MAIDEN name with no consideration given to the variation of the surname. All persons with first initial or name beginning with "A" are grouped together in the "A" section. Those with "B" likewise in the "B" section.

This edition is far from perfect. I have seen some errors that I could not correct. I am sure that I have missed some others that I might be able to correct when I see this volume in print. Specifically, I noticed some given names in the "I" section that begin with small "i" indicating that there is one or more preceding letters that has been lost in gathering the information and converting it to fit this database. If you have the census disks, or access to them online, I hope you will assist me in correcting these errors.

In spite of the errors, I am confident that this volume is a HUGE improvement over anything that I have seen in the past. I sincerely hope that it will give you the boost that you need to continue your family history quest.

Dan Brinson

Remarks: (The Baltimore Sun; : May 23, 2000; p. 10E) MIAA update Yesterday's rained-out No.4 Calvert Hall (16-11) at No. 3 Mount St. Joseph (21-8) winners-bracket baseball game will be played at 3:15 p.m. tomorrow. The game could not be played today because St. Joe is closed for the funeral of legendary coach and athletic director John Plevyak. No. 9 Archbishop Curley (18-12) will play the loser of Calvert Hall/Mount St. Joseph Thursday. If defending champion Curley wins, the finals will not start until next Tuesday because Curley has graduation Friday. Curley's next victory would be No. 500 for 38-year coach Al Frank (499-381, .567). Only Terry TERRILL of Riverdale Baptist (42-4), who is approaching 600, has more career wins than Frank.

Remarks: (The Baltimore Sun; March 23, 2000; p.: 1A) A day after ending a siege in a Dundalk rowhouse, police offered a graphic, sometimes chilling picture yesterday of the horrors endured by three hostages terrorized by the man who called himself "Colonel Palczynski." For four days, Joseph C. Palczynski was commandant of a filthy, suffocating bastille, with the final word on whether his three prisoners would live or die. He tortured his captives with death threats and repelled his adversaries with bullets. Finally, one of the hostages spiked his iced tea Tuesday night with an anti-anxiety drug and slipped through a bedroom window, setting in motion the events that ended a 97-hour hostage ordeal. Negotiators enlisted the help of a devout Jehovah's Witness, 54-year-old William L. TERRELL The Virginia man was allegedly abducted by Palczynski and drove him home to eastern Baltimore County. "He was rising up with his arms extended. Within reach were three firearms. The officers shot and killed Mr. Palczynski," county police Chief Terrence B. Sheridan said.
